Reduce costs and increase productivity with integrated email and calendar services.

Countywide Email & Calendar

Internal Services Department

FEATURES

Secure email
Send and receive secure email messages and attachments with anti-virus and anti-spam features.

Distribution groups
Easily create distribution groups for people you frequently communicate with to streamline your email management.

Integrated calendar tools
Easy tools help you schedule meetings, enable auto-reminders and access up-to-date countywide address lists.

Rapidly changing technology and demands on departmental resources make it difficult to effectively manage and maintain a large-scale email system. Your staff needs to find ways to work smarter – while increasing their efficiency and maintaining high quality service to your clients.

ISD's Countywide Email Service serves over 800 locations in support of more than 20 County Departments. Our broad range of services provide a reliable, secure system that supports calendaring and communication capabilities while reducing costs and includes:

- Secure messaging within County-owned network
- 24/7 Network Operations Center
- Fully redundant network for continuity of service
- Rates that meet or beat private sector products
- No cost for support staff, maintenance or contractor

COUNTYWIDE EMAIL & CALENDAR BENEFITS

SECURE NETWORKING
Anti-virus, anti-spam and message encryption services keep your data within the secure County-managed infrastructure to help you meet County email usage and security standards.

SIGNIFICANT COST-SAVINGS
One of the lowest priced email systems you'll find anywhere – plus you eliminate the expense of building and supporting your own email system.

SEAMLESS INTEGRATION
Our Microsoft Exchange email platform using Microsoft Outlook, provides seamless integration that lets you access your email and calendar from your desktop, tablet and phone.

ADVANCED CALENDARING TOOLS IMPROVE EFFICIENCY
Calendaring lists make it easy to schedule meetings with critical stakeholders and even send reminder notices automatically.
